

Contract

DEVELOPER name(s) (all team members):

Kenneth Chen

DEVELOPER agrees to design and develop a Java Swing program (and present it) with the following functionality for the Term Project in this course.

DEVELOPER agrees to design and program at least 90% of the algorithms and code required for this proposed project. Up to 10% of the code may come from online sources, but only if commented with a URL to the original source.

DEVELOPER agrees to seek help by searching [the Internet](#), consulting the [Java Docs](#), asking [computer science tutors](#), asking on [Discord](#), or asking the [course instructor directly](#).

Proposed project functionality:

Simple Top-Down Dungeon Crawling Game

Grid-Based Movement

Multiple Floors/Levels

Health and Defense Stats

Health Pickups

Keys and Locked Doors

Enemies
